SILVERSHIELD 800

Stoughcool Silvershield 800 is a solvent based highly effective rust preventative. It will provide a minimum of 1 year protection in indoor storage and leaves a thin protective film that readily displaces moisture from metal surfaces. It can be applied by dipping, rolling or brushing. It can be applied to both wet and dry parts and will protect cast iron, steel, aluminum and copper alloys.

LAB DATA	
Physical State	Light Amber Liquid
Odor	Mild
Solubility in Water	Insoluble in water
Viscosity SUS 100 F	25
Density lbs/gal	6.3
Flash Point F	>125
Auto Ignition Temp. F	>650
