

The Ultimate High Performance Cutting Lubricant

JET KUT 36 AM

Stoughcool's Jet Kut 36 AM is a premium cutting oil formulated with a unique combination of mineral oil and excellent lubricity components designed for use in many different cutting applications including Swiss style CNC turning, screw machines, broaching, gear cutting and general machining. It contains a very robust lubricity package using extreme pressure lubrication that will achieve excellent tool life in tough machining applications. Formulated to be bright and clear, it has exceptional visibility, while allowing optimum operating speeds and stock removal. It is a low foaming product allowing this fluid to be ideal for high-pressure coolant delivery systems. Jet Kut 36 AM excels on both ferrous and non-ferrous metals including tough alloys, stainless steel, aluminum and titanium. It can also be used on yellow metals and will not stain copper or brass.

STOUGHCOOL
WE KNOW COOLANT.

Appearance	Light Amber-Amber, Clear
Specific Gravity	0.901
Density lbs./gal.	7.52
Flash	~420° F
Viscosity @ 40° C	36.4
Viscosity @ 100° F	~ 170 SUS
Copper, 24hr Ambient	1A
Copper, 3hr @130° F	1A
